ABOUT US

Introducing TileTek by Learn & Grow Toys

We are proud to announce our rebrand to TileTek, a name that reflects our future-focused vision and the innovation driving our product development in the years ahead. TileTek represents our commitment to creating stronger, smarter magnetic tiles that are built to last.

TileTek by Learn & Grow Toys is a family-run manufacturing and distribution company based in Coffs Harbour, Australia. As experts in magnetic play, we are recognised for our thoughtful, *clever* innovation and uncompromising commitment to quality. We carefully source the highest-grade magnets, plastics, rivets and components, because better materials create better play.

Guided by our new ethos, Build Better, we design beautifully crafted, open-ended toys that inspire creativity, learning and imagination.

Our tiles create strong, stable structures that don't fall over, delivering a more rewarding, enjoyable and educational play experience.

Innovation and new product development set TileTek apart, because no one else creates magnetic play that builds better.

WHY CHOOSE TILETEK?

Designed in Australia & manufactured in China all of our products are crafted from the safest plastics, with top grade magnets and durable rivets to ensure lasting, sturdy play.

All our tiles meet CE, USA, UKA & AU/NZ testing standards and are suitable for ages 3+.

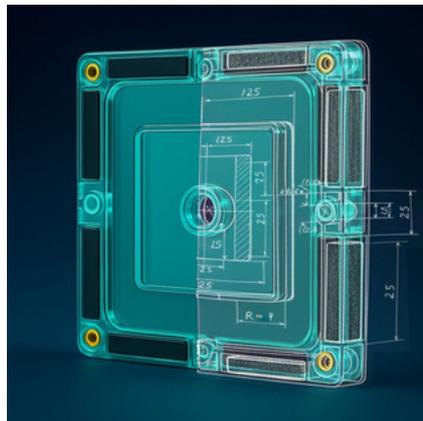

Non Toxic Toys

All our tiles are made from ABS Food Grade Plastic that are BPA, Lead and Phthalate free and meet all CE testing standards.

Stronger Magnets

Our tiles use powerful magnets to create bigger, stronger, and more stable builds.

Solid Construction

Our tiles are ultrasonically welded and brass riveted to keep magnets securely sealed, making safety our top priority.

Innovative STEAM Toys

Where Inspiration meets Ingenuity!
Our tile toppers were Toy Award Finalists in 2024.
